

Is your child 11-18 years old with a unilateral or bilateral cochlear implant(s)?

Your child may qualify for a University of Iowa study!

- The University of Iowa Cochlear Implant Lab studies language processing in individuals with typical hearing and cochlear implants.
- Your child will complete one 2-hour session in the lab and do some eyetracking and some reading tasks.

Compensation

- \$40 (\$20/hour)

Location

- We can coordinate to meet where it's convenient for you!
- Appointments can be made to fit your schedule!

Eligibility Criteria

- 11-18 year olds
- Unilateral or bilateral cochlear implants
- Implanted before the age of 3 years old
- English is the only language spoken
