

APPROVED BY USU IRB #11203

WE ARE INTERESTED IN BETTER UNDERSTANDING THE EXPERIENCES OF PARENTS RAISING CHILDREN WHO USE COCHLEAR IMPLANTS.

If you are a parent of a young child who used cochlear implants, we would like to learn about your experiences. If you choose to participate, you will complete a short survey and share your story with an interviewer for about 60 minutes.

To participate and share your story, or to learn more about the study, email the lab at AuralRehabLab@usu.edu or call the lab at 435-797-5748.

If you have questions or concerns please contact Dr. Brittan Barker at brittan.barker@usu.edu
